

What

Next generation deck fill

- Fits every vessel with 1.5" fill hose
- Easy to install
- Modern low profile styling

Boat builders have a new choice

- Reliable availability
- Engineered and designed for long life
- EPA/CARB compliant

Why Switch

Universal Plug & Play

- Works with all fuel systems
- Backwards compatible
- Fits 13/16" and 15/16" nozzles

Easy One Hole Installation

- Lower labor costs to install
- Patent pending

Value Add Features

- Marked hose stop location
- Hose clamp guidance

Best Vacuum Performance

- Always under 0.5kPa
- Less engine fuel line restriction

Best PRV Performance

- 15% Less pressure on fuel tank
- Lower daily pressure cycles
- Safer for tank joints

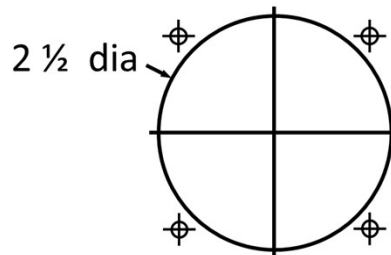

Rigorously Validated and Tested

- ABYC H24 Compliant
- Durability tested
- Each valve is 100% tested

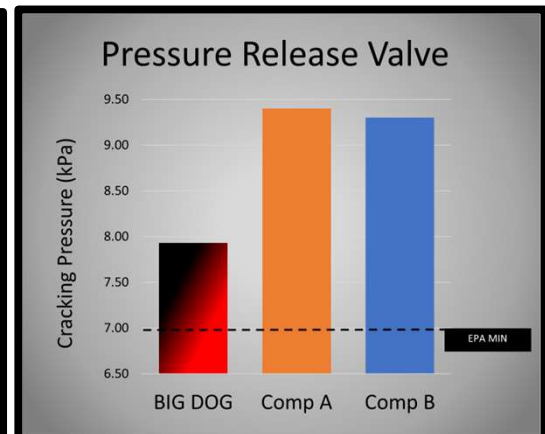

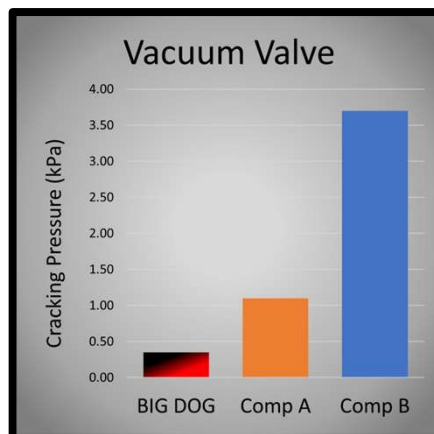

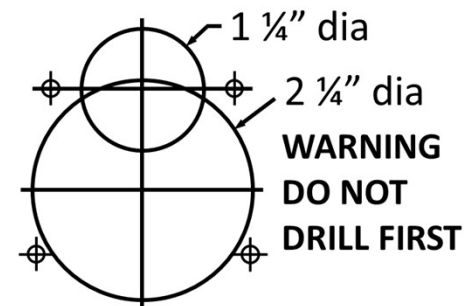

Expert Technical Support

- Fuel System Architect on call
- 12 Marine Fuel Patents
